CHANGE LIVES. CHANGE THE WORLD.

2026 Campaign

www.rpcvnj.org

Dear RPCVNJ Supporters,

It's time again to reach out to you, our community of returned volunteers, for essential and needed financial support.

Since 1961, more than 240,000 Americans have served through the Peace Corps, living and working alongside local community members worldwide. Currently, more than 3,000 volunteers and trainees are in the field across 60+ countries, addressing local priorities in sectors such as agriculture, community economic development, education, health, environment, and youth development.

Through this global service, volunteers not only help host-country partners build skills and capacity — they return home transformed, reporting major gains in cultural awareness, resilience and problem-solving.

With the generous donations from Returned Peace Corps Volunteers of New Jersey, we were able to support New Jersey volunteers with the following projects:

Philippines—An environmental education club that cultivates the next generation of leaders by equipping students with the tools, knowledge, and confidence to take initiative, develop student-led projects, and create meaningful solutions to environmental challenges within their own communities.

Ghana—A community-based clinic rehabilitation project to improve the building's structure and connect it to running water, improving sanitation and providing better patient care and education.

Kenya—A school renovation project brining electricity and lighting to classrooms and dormitories to expand access to visual learning tools and educational technology.

Peru—Professional development workshop and training for artisanal entrepreneurs to preserve ancestral weaving techniques, improve artisan collaboration, and increase income through expanded markets.

Your continued support enables this people-to-people diplomacy — strengthening communities abroad, and building stronger, more globally-aware citizens at home.
